Full-stack web developer with a background in hospitality and administrative operations, holding a Software Engineering Certificate from Fullstack Academy. Skilled in building scalable web applications and RESTful APIs using JavaScript, React, Node.js, and PostgreSQL. Known for collaborative problem-solving, fast learning, and translating complex challenges into practical technical solutions. Motivated to contribute clean, efficient code to mission-driven teams in tech-forward environments.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React, Redux, Express.js, Node.js

Databases: PostgreSQL, SQL

Tools & Platforms: Git, GitHub, Vite, VS Code, REST APIs

Testing: Jest, React Testing Library

Other: Agile methodology, CI/CD concepts

TECHNICAL PROJECTS

DiscogMVP | Full-stack Developer | May 2025 | <https://github.com/2410-Capstone/DiscogMVP>

An e-commerce web application for vinyl collectors, built with the PERN stack (PostgreSQL, Express, React, Node.js)

- Designed RESTful API with secure JWT auth, Stripe integration, and admin roles
- Built PostgreSQL schema with associations for users, orders, and products
- Implemented responsive React components, Context API state management, and SCSS module styling

EXPERIENCE

Administrative Assistant | *Hunter Management LLC* | Oklahoma City, OK | June 2024-Current

- Utilized point-of-sale (POS) software to track orders, payments, and inventory, ensuring smooth transactions and accurate reporting
- Managed high-volume tasks by optimizing workflows with digital tools, improving time management and reducing customer wait times
- Analyzed weekly inventory data to forecast needs and prevent shortages, using data-driven insights to support stock management

Bartender | *The Library of Distilled Spirits - The First National* | Oklahoma City, OK | May 2022-April 2024

- Implementing digital solutions for inventory management, improving stock tracking accuracy and reducing discrepancies
- Streamlining internal workflows to improve efficiency and organization
- Collaborated with team members to implement efficiency-focused solutions in a fast-paced environment, enhancing team coordination and service delivery

EDUCATION

University of Oklahoma Outreach Web Development Bootcamp | Powered by Fullstack Academy |

October 2024 - May 2025

Software Engineering Certificate

Immersive software engineering coding bootcamp focused on mastering HTML and JavaScript foundations, front- and back-end development, and databases.

University of Oklahoma | Norman, OK | August 2016 - May 2018
Sociology Studies

Classen School of Advanced Studies | Oklahoma City, OK | Graduated May 2016
International Baccalaureate (IB) Diploma

A globally recognized academic program emphasizing critical thinking, intercultural understanding, and rigorous coursework across six subject areas. Completion included an extended research essay, Theory of Knowledge course, and over 150 hours of Creativity, Activity, and Service experiences.

VOLUNTEER EXPERIENCE

Board Member | *OKC Beautiful* | Oklahoma City, OK | 2014-2016

- Collaborated with peers to plan and lead community beautification projects and environmental education initiatives
- Advocated for youth involvement in citywide sustainability initiatives, supporting community engagement and environmental awareness
